**Subject:** NuStar Portland Terminal (ECSI #5130) Quarterly Progress Report  
**Attachments:** removed.txt; 20151014\_Apex\_Third Quarter 2015 Progress Report.pdf

Mr. Orr,

On behalf of the NuStar Energy, please find the attached Third Quarter 2015 Progress Report for the NuStar Portland Terminal. A hard copy to follow by mail to DEQ.

Please let us know if you have any questions.

Thank you,

Ian

**Subject:** RE: NuStar Portland Terminal

Good Afternoon Jim,

That all sounds good, we are more than happy to make those changes. All future correspondence will include the Shore Terminals ECSI # 5130, not the ECSI # for the Exxon Mobil Site. In addition, electronic copies of DEQ submittals moving forward will be provided to Eva DeMaria and Sean Sheldrake at EPA.

One question I do have, and this is more for EPA. The pdf guidance discusses that pdf documents should only be broken into components if necessary because of the pdf file size (after downsizing), however the guidance did not discuss a file size limit for email transmittal, is there a file size limit?

***[ORR Jim] Sean had answered your question in a email***

Also, please let us know if it would be helpful if we prepared and submitted the SCE report using the EPA requested pdf format.

***[ORR Jim] For DEQ submittals please submit one bound hard copy, one unbound hard copy, and a PDF of the complete report (Figures, Text, and Analytical). You do not have to follow the EPA format.***

***My email limit is limited (less than 8 MB) so large documents should be sent on disk or using a FTP site, if you want DEQ to get the information more quickly.***

***All documents (letters, ect) should be sent as a hard copy, PDF copy on a disk.***

***If analytical data as a hard copy combined with the report and figures requires a separate binding then submit all lab data on a disk without a hard copy of lab data.***

***Lab reports do not require chromatograms, just the standard lab report.***

***Thanks Jim Orr***

Thank you,

Ian

**Subject:** RE: NuStar Portland Terminal

Ian, I have a request for you.

Please send all correspondence for ECSI # 137 Exxon Mobil from now on under ECSI # 5130 Shore Terminals. Our files will reflect the change and then it will allow future work to be tracked under one ECSI number.

In addition, please forward all future submittals to DEQ to EPA in the format contained in the attachment (PDF Only to EPA).

EPA contacts are:

[DeMaria.Eva@epa.gov](mailto:DeMaria.Eva@epa.gov) (Eva DeMaria) and

[sheldrake.sean@epa.gov](mailto:sheldrake.sean@epa.gov) (Sean Sheldrake)

*Thank You*

Jim-

It was nice to speak with you today and make my introduction. I'm relatively new the PM role for the Site, but have been involved with field work at the Terminal for a number of years. Per our conversation, we will submit the first semi-annual 2015 groundwater monitoring report to DEQ on August 28<sup>th</sup>. Thank you for your accommodation and understanding with the delay as we prepare the report. I've included Victoria Wark (NuStar) and Amanda Spencer (Apex) on the email so that you can have the contact info for everyone who is involved with the project.

I look forward meeting with you soon.

Thank you,  
Ian
